

# Bonnyville Golf and Country Club

## Turf Care Department Monthly

### Report

---

August 26, 2019

**Wade Brockhoff**  
**Course Superintendent**

# **Turf Care**

## **Greens**

Fungicide program will commence after the long weekend in September. We will apply 3 separate apps before we bed for winter.

## **Tees and Fairways**

We usually apply fungicides starting the first week in October, weather depending of course.

## **Hole 6 Drainage**

Pipe 500' \$800--Gravel 28 ton delivered \$1370 --Drainage grates \$450  
Total= \$2620

## **Tidbits**

1. Edged all bunkers on the back 9
2. Trenched in power cable to sump in parking lot.
3. Completed the bench pads for holes 3,15,16 and did 14 tee as a bonus
4. Talked to fire Department on coordinating a brush pile burn after the 2019 golf season. Weather will determine when we burn so there is no date set.
5. Repaired transfer line that was cut from MSCNET
6. Changed mowing patterns in front of greens, gives an apron look. Also helps reduce clippings from migrating on to the green.
7. Squaring off tee deck surfaces (see attached photo). We started this and will continue through the next couple weeks

10 reds tee box squared off

Repairing 9 irrigation

#15 Bench pad
